Examiner-Initiated Interview Summary Continuation Sheet

A one-way test for obviousness-type double patenting is appropriate since there was no administrative delay caused by the Office permitting the claims of the patent to be issued first. Accordingly, a terminal disclaimer has been filed to overcome the obviousness-type double patenting rejection over U.S. Patent No. 6,641,923.

Art Unit: 1712

1. The terminal disclaimer overcomes the obviousness-type double patenting rejection over U.S. Patent No. 6,641,923.
2. Since the sole remaining rejection is the obviousness-type double patenting rejection over copending application no. 10/288,791, the rejection is withdrawn, permitting the claims of the instant application to be allowed in accordance with MPEP § 822.01, the section entitled "Only Provisional Double Patenting Rejection Remaining in One Application. The claims of the copending application have yet to be examined as of this date.
